

# ARTWORK SUBMISSION GUIDE FOR THE GRANDJET S3

## LAYOUT GUIDE FOR COMMON BILLBOARD SIZES

3 x 1.5m billboard - set up the page at 295mm x 145mm and bleed out 5mm on each edge  
final art work size 305 x 155mm (Scale 1 : 10)

6 x 3m billboard - set up the page at 595mm x 295mm and bleed out 5mm on each edge  
final art work size 605 x 305mm (Scale 1 : 10)

9 x 3m billboard - set up the page at 900mm x 300mm and bleed out 5mm on each edge  
final art work size 910mm x 310mm (Scale 1 : 10)

9 x 6.9m tower face - set up the page at 900mm x 690mm and bleed out 5mm on each edge  
final art work size 910mm x 700mm (Scale 1 : 10)

12 x 3m billboard - set up the page at 630mm x 165mm and bleed out 2.5mm on each edge  
final art work size 635mm x 170mm (Scale 1 : 20)

## FILE SIZES

All billboard images should be scanned at 500dpi in CMYK at 1/10th of the final size.  
(eg. - an image for a 6 x 3 metre billboard should be scanned at 605mm x 305mm at 500dpi  
and will result in a file of approximately 280Mbs).

## ACCEPTABLE PROGRAMS

We accept Mac or PC files. We accept files in Quark, Illustrator, Photoshop, Freehand,  
Page Maker, Corel Draw and most other graphics programs.

## COLOUR AND GRAPHICS CONSIDERATIONS

Work in CMYK, this includes all colours, graphics, text and images. Convert all blacks to a four  
colour combination of 40% Cyan, 40% Magenta, 40% Yellow, 100% Black. Note: Quark black  
is not a CMYK colour and is best avoided. Please realise that we can only match to the process  
equivalent of Pantone colours.

Please supply a printout of the file you have sent us (colour if possible). Please note due to the  
inconsistent nature of colour ink jet or laser prints we do not consider them to be an accurate  
colour guide. If you require Discus to match a particular colour reference (poster, colour print,  
Iris or Cromalin proofs, transparency etc...) then please send this to us when you send us the  
artwork and mark this item as a colour reference.

Scan from the best artwork available. (Scans from printed material such as newspapers,  
business cards, magazines etc, are not recommended).

Include all screen and printer fonts (we can accept true type fonts).

Supply all relevant files- including all linked or placed files.

We recommend using Photoshop for design and Quark Express for all layouts. Set up layout files in  
correct proportion.

Indicate clearly if there is an extension.

If you have any questions at all relating to the above guidelines please call your Account  
Manager.
